is an original, vibrant, offbeat comedy that follows a group of real-life “failure” actors on a chaotic journey through faux-celebrity red carpets, train-wreck auditions, and stalking producers with invisible scripts. The misfit dreamers, fools of hope, ban together on a roller-coaster ride toward their dreams.

- **Lizolet**, a Ukrainian writer, dyslexic, who can't spell well.
- **Mark Star**, a self-proclaimed rock star still living with his heyday of Hollywood wannabe stunt-actress **Mama**.
- **Jimi Choopchick**, a delusional social-media cheesy blogger streaming from his bathroom studio.
- **Cousin Sit**, a Native American cross-dressing model turned cab driver whose best friend is a lost squirrel.
- The F-Listers arch nemesis: the **Forever PA**, who quit the dream and became a lifelong PA.
